GLOBAL SISTERS **BACK HER BRILLIANCE**

Making Business Possible

Who we are & why we exist

We believe in a world where every woman has the opportunity to create her own economic future.

Global Sisters is a not-for-profit that makes business possible for women across Australia. We support the creation of new jobs and increase economic participation. Our purpose is to unlock women's potential and overcome the barriers stopping her, so she can create her own employment, become financially resilient, stand tall and influence her family and community.

Incredible things happen when you back women. When women are given the confidence, skills, connections and support they so often miss out on, there is no stopping them. They break down barriers, force change and move us all on. They start-up and grow businesses, lift up communities, and make the economy a more equal, inclusive place. All these women need is the same backing given to everyone else.

Global Sisters. Back Her Brilliance.

What we do

Global Sisters offers women the opportunity to improve their own financial situation by making business a genuine option. Our long term support provides women with the roadmap to start up a business and become self-employed.

Our support is available to women nationwide via place-based and remote, digital offerings. Importantly, we do not do this alone. We are part of an ecosystem of support for women entrepreneurs, with connection and community being core to our mission.

What we've done so far

- We've made business possible and increased economic participation for women across Australia since 2016
- We've provided a genuine alternative to welfare or unstable employment for thousands of women nationwide, including those in urban, regional and remote communities
- We've supported women who are unemployed, underemployed or struggling to keep an existing business open, with a special focus on single mothers and older women
- We've helped to create hundreds of new jobs, providing access to flexible and decent work
- We've helped to increase incomes and financial resilience of women
- We've built confidence and raised up women leaders
- Transferred millions of dollars of value of pro bono support from the corporate and business sector to our Sisters.

What we can do in the future

A business led recovery in the post COVID economy is critical. This is the time for us to create a more inclusive economy, where new jobs are created that are flexible, innovative and meet the needs of changed consumer needs and behaviour.

By investing in Global Sisters, together we can increase economic participation and productivity, create opportunities for self-employment and increase women's financial resilience.
