GLOBAL SISTERS **BACK HER BRILLIANCE**

Incredible things happen when you back women

Your backing will create a ripple effect for our Sisters

When women are given skills, connections and support they so often miss out on, there is no stopping them. They break down barriers, force change and move us all on. They start-up and grow businesses, lift up communities, and make the economy a more equitable and inclusive place. All these women need is the same backing given to everyone else.

Global Sisters exists to enable women to be financially resilient and stand tall. We provide a genuine alternative for women who are unable to participate in mainstream employment or are in low-paid insecure jobs. By removing the structural and circumstantial barriers they commonly face, we make self employment a viable option.
