GLOBAL SISTERS

LITTLE GREEN HOUSES FOR HER

A new path to secure, affordable home ownership for women

Are you a Solo Mum and struggling to find stable, affordable housing?

Little Green Houses for Her is a new housing initiative by Global Sisters that helps women like you become **homeowners** — not renters — in a supportive micro-community in **Armidale (NSW)**.

This is NOT social housing. This is a **long-term, secure housing solution** where you own your home and your future.

You might be eligible if you:

- Are a **single mum** on a low income or Parenting Payment Single (PPS)
- Are currently **renting, in social housing, or your housing is insecure**
- Have a **low or modest income** (e.g. Centrelink or part-time work)
- Want to **own a home** and are willing to take on a low-cost, supported home loan
- Are open to living in a small, friendly **community of women and children**
- Part of the Global Sisters community of support for female founders
- Self-employed or interested in self-employment

What's included:

- A beautiful, **energy-efficient small home** — architecturally designed and fully owned by you
- Part of a **micro-community** of 4–8 homes with shared outdoor and garden spaces
- A **genuinely affordable home loan** through Regional Australia Bank
- **Built-in support** to help with financial capability, setting up the micro community and to develop your one business income (if you choose)
- **Ongoing low utility bills** thanks to energy-smart design
- A stable foundation for you and your children to thrive

It's time to stop renting and start owning

Secure your future for you and your kids with Little Green Houses for Her.
